SUPPLEMENT TO REPORT NO. [REDACTED]

- On 5 June 1951 it was observed that the Neubukow (N 55/0 51) railroad station is being improved. A new signal box was half completed and two new tracks, each 200 to 400 meters long, were being laid toward the north. \*
- The rail link west of Kuestrin-Kietz is not yet completed. By 14 June only the switch from the Berlin-Kietz trunk line to the rail link was installed. \*\*

25X1A

\* [REDACTED] Comment. The enlargement of the Neubukow railroad station on the Rostock-Wismar line was reported previously. [REDACTED] The installation is of importance as the detraining point of the Mustraw (N 55/0 51) rail range. 25X1A

25X1A

\*\* [REDACTED] Comment. The construction of this important rail link was reported previously. The slow progress of the work is probably caused by a lack of rails.
